PROJECTS

E-Commerce Backend

Used Javascript, Express, Node, MySQL, and Sequelize to build a backend for a make believe e-commerce site and test it with Insomnia.

ZoominLife

Built a fake biking enthusiast website as part of a small team as our first group project. Used HTML, CSS, and Javascript, a new css framework, and made use of 2 free API's.

Work Day Scheduler

Built a site that allowed the user to input tasks they needed to complete that day using local storage to save the information. The time blocks are color coded depending on time of day.

SKILLS

HTML

CSS

JQuery

Node.js

Express.js

React.js

MySQL

NoSQL

MongoDB

GraphQL

Restful API's

Bootstrap

Bulma

Regex
